

2012 Living Well County Data

Douglas County

Fact Sheet

INTRODUCTION

This report includes several evidence-based chronic disease self-management programs developed by the Stanford Patient Education Research Center.

They are all currently offered in Oregon:

- ***Living Well with Chronic Conditions*** is Oregon's name for the English-language version of the Stanford Chronic Disease Self-Management Program (CDSMP). It is a six-week, peer-led workshop for people with one or more chronic conditions and their support people.
- ***Tomando Control de su Salud (Tomando Control)*** is the culturally adapted, Spanish-language version of CDSMP. It is also a six-week, peer-led workshop for people living with one or more chronic conditions and their support people.
- ***Positive Self-Management Program (PSMP)*** is a seven-week, peer-led workshop designed specifically for people living with HIV/AIDS and their support people. PSMP is also offered in Spanish.
- ***Diabetes Self-Management Program (DSMP)*** is a six-week, peer-led workshop designed specifically for people living with diabetes and their support people.

The Oregon Health Authority (OHA) supports and collects data on Living Well, Tomando Control and the PSMP program. OHA does not currently support the DSMP program; however, organizations providing DSMP voluntarily furnished data for this report.
