

Notice of Intent to Hold an OLCC Production License

Dear _____,

You have designated me as your grower with the Oregon Medical Marijuana Program (OMMP), at _____ (grow site address).

I am required to give you this notice as part of my application for a stay of the medical marijuana plant limits imposed by ORS 475B.428.

I have applied for an Oregon Liquor Control Commission (OLCC) producer's license at the grow site address listed above. If OLCC grants me a license I will no longer be your grower at this grow site and you will need to request a grow site change through the OMMP.

As an OMMP patient, unless you have entered into a personal agreement with me to transfer your rights you have certain possessory rights to your medical marijuana. These rights are explained below.

- All seeds, immature marijuana plants, mature marijuana plants and usable marijuana that I am growing for you are your property.
- You may request that I transfer some or all seeds, immature marijuana plants, mature marijuana plants and usable marijuana that I am growing for you, to you.
- You may request that I transfer some or all usable marijuana that I am growing for you to a marijuana processing site.
- You may request that I transfer some or all of the seeds, immature plants and usable marijuana that I am growing for you to a medical marijuana dispensary.

See ORS 475B.420(7).

If OLCC grants me a producer license your possessory rights as explained above will terminate on the date I receive the license.

Please contact me if you have questions or concerns at _____.
