Oregon Public Health Division Reporting for Laboratories

CIVIL PENALTIES FOR VIOLATIONS OF OREGON REPORTING LAW

A civil penalty may be imposed against a qualifying laboratory that fails to seek or obtain ELR approval, or against a clinical laboratory for failing to report a reportable disease in accordance with Oregon Administrative Rule.¹

CIVIL PENALTIES FOR VIOLATIONS OF OREGON REPORTING LAW

A civil penalty may be imposed against a qualifying laboratory that fails to seek or obtain ELR approval, or against a clinical laboratory for failing to report a reportable disease in accordance with Oregon Administrative Rule.¹

Civil penalties shall be imposed as follows:

- First violation $100, second violation $200, third or subsequent violation $500;
- Each day out of compliance will be considered a new violation.

BACTERIA

- Bacillus anthracis
- Bordetella pertussis
- Borrelia
- Brucella
- Campylobacter
- Chlamydia trachomatis
- Chlamydomphila psittaci
- Clostridium botulinum
- Clostridium tetani
- Corynebacterium diphtheriae
- Coxiella burnetii
- Ehrlichia/Anaplasmata
- Enterobacteriaceae family isolates
- Escherichia coli
- Francisella tularensis
- Graminola hollisae (formerly Vibrio hollisae)
- Haemophilus ducreyi
- Haemophilus influenzae
- Legionella
- Listeria monocytogenes
- Mycobacterium bovis
- Mycobacterium tuberculosis
- Neisseria meningitidis
- Neisseria gonorrhoeae
- Pseudomonas aeruginosa
- Salmonella
- Vibrio cholerae
- Vibri non-cholae
- Yersinia pestis
- Yersinia, non-pestis

PARASITES

- Babesia
- Cryptosporidium
- Cyclospora
- Giardia
- Plasmodium
- Taenia solium
- Trichinella

VIRUSES

- Arboviruses
- Arenaviruses
- Flaviviruses
- Hantavirus
- Hepatitis A
- Hepatitis B
- Hepatitis C
- Hepatitis D (delta)
- Hepatitis E
- Hemorrhagic fever viruses
- HIV and AIDS
- Influenza, novel strain
- Measles (rubella)
- Mumps
- Polio
- Rabies
- Rubella
- SARS-coronavirus
- Varicella (smallpox)
- West Nile fever

OTHER IMPORTANT REPORTABLES

Any "uncommon illness of potential public health significance"¹

Any outbreak of disease¹

Results on all blood lead testing should be reported within seven days unless they indicate lead poisoning, which must be reported within one local health department working day.¹

All CD4 counts and HIV viral loads

FOOTNOTES

1. Oregon Revised Statutes 433.004; Oregon Administrative Rule 333-018 (http://arcweb.oei.state.or.us/a/pages/rules/tours_300/tour_333_333_018.html)
2. Refer to www.healthoregon.org/diseasereporting for a list of local health departments, reporting FAQs, and more details about what to report. When in doubt, report.
3. OAR 433.004 and OAR 333.016-001-001 (http://arcweb.oei.state.or.us/a/pages/rules/tours_300/tour_333_333_018.html); Manual for Mandatory Electronic Laboratory Reporting (www.healthoregon.org/acr)
5. Isolates must be forwarded to the Oregon State Public Health Laboratory (phone: 503-685-4100).
6. All confirmed or suspected isolates of E. coli O157, and at non O157 Shiga toxin-positive isolates, must be forwarded to the Oregon State Public Health Laboratory (phone: 503-693-4100).
7. Reports of mycobacteria must be reported within one local public health authority working day.
8. Report coccidiosis and all unidentified Zoona spp. (e.g., ammoia, baso) if stool (O & P).
9. IgM-positive HIV and HIV serums specimen DO NOT need to be forwarded to the Oregon State Public Health Laboratory.
10. Hemorrhagic fever caused by viruses of the Flavivirus (e.g., Ebola, Marburg) or arenavirus (e.g., Lassa, Machupo) families are reportable.
11. Influenza A-virus that cannot be subjected to commercially distributed assays.
12. "Lead poisoning" means a blood lead level of at least 10 micrograms per deciliter.
13. Any other arbovirus-dense viruses, including, but not limited to California encephalitis, Colorado tick fever, Dengue, Eastern equine encephalitis, Heartland virus, Kyasanur Forest, St. Louis encephalitis.
14. See CRE poster (OHA 8578) for further information.
