

MOSQUITO PROBLEMS START AT HOME IN SOME NOT SO STRANGE PLACES

RAIN BARRELS

Cover barrels and buckets.

ANIMAL TROUGHS

Keep water fresh. Drain standing water from around stock troughs.

RAIN GUTTERS

Clean clogged gutters

GARDEN PONDS

Clean garden ponds and stock with mosquito fish

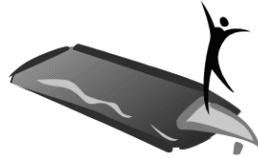

OLD TIRES

Get rid of used tires properly

SWIMMING POOLS

Clean and maintain swimming pools

BIRDBATHS

Change water in birdbaths weekly

Take the bite out of summer

Mosquitoes need water to breed and grow. It doesn't take much water and it doesn't take much time. So, almost anything that will hold water for a week or more can produce these pests. Check for places around your home that can cause mosquito problems. Get rid of containers that hold standing water and mosquitoes won't have a chance.
