INTRODUCTION

The 2009 Oregon Licensed Facilities Report provides statewide licensing and inspection information for all food service establishments, public pools, public spas and tourist accommodations. Each local public health authority provides their data annually to the Department of Human Services' (DHS) Food, Pool & Lodging Health and Safety Section for this report. Data not submitted is reflected with an asterisk (*). Data that does not apply or is zero, is reflected with a dash (-). Public pool plan reviews conducted by DHS staff are noted by a triple-asterisk (***)

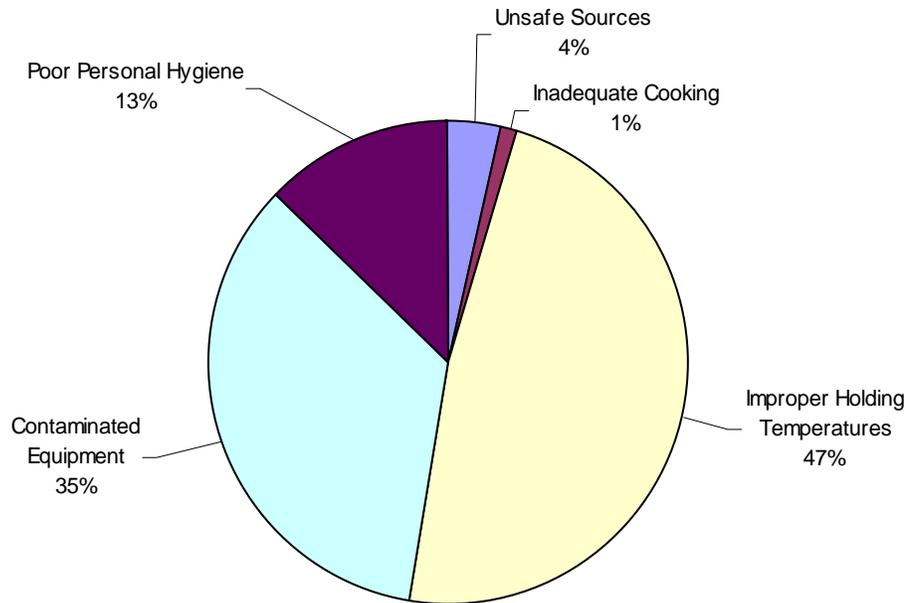

Data regarding standardized county staff and CPO-equivalent certifications is from the DHS database only. Some counties may have taken their pool operator courses from a private contractor.

The raw data in the previous format are included in the annex of this report. It is also available online at: www.healthoregon.org/foodsafety. All graphs included in this report are informational and not designed to draw specific conclusions about the data represented.

If you need this document in an alternate format, call 971-673-0451.

INTRODUCTION

CDC Risk Factor Violations in Oregon for 2009

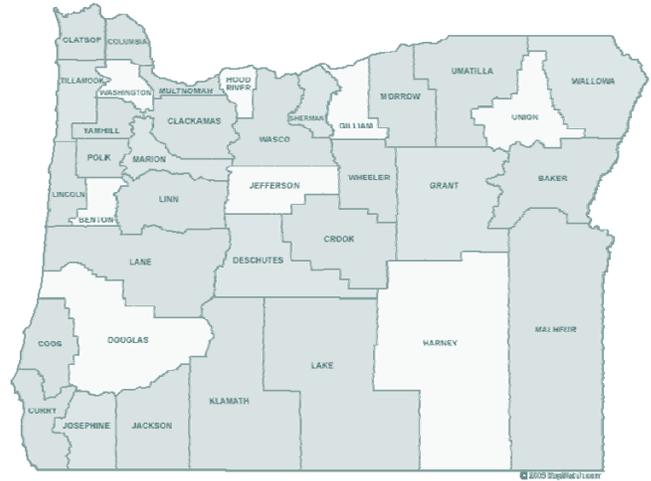

The percentages shown are out of the total number of risk factor violations cited statewide.

The Centers for Disease Control have developed five categories of foodborne illness risk factors. These are: Food from Unsafe Sources; Inadequate Cooking; Improper Holding Temperature; Contaminated Equipment; and Poor Personal Hygiene. The chart above shows the breakdown of these violations cited in restaurants statewide in 2009. These results are almost identical to those shown for 2008 and 2007.

ANNEX A

Foodborne Illness Prevention Program Triennial Review Results 2009

This year, we reviewed 11 counties (Benton, Columbia, Crook, Douglas, Grant, Jackson, Jefferson, Marion, Morrow, Polk and Wallowa) and accompanied 7 inspectors during their routine food service inspections. If county staff are state-standardized, they are not required to complete the field part of the review, since the standardization process is so rigorous.

Program Review Summary:

Category	In Compliance
Licensing and Fees	98%
Inspection Standards	87%
Staffing and Training	100%
Food Handler Training	88%
Record Keeping and Reporting	100%
Epidemiology and Accident Investigation and Reporting	100%
Enforcement Procedures	94%
Minimum Standards, Program Review and Penalties	97%

Areas that still need improvement statewide are:

Licensing and Fees:

- Pro-ration of fees must be applied properly
- Fees for additional inspections must be charged properly

Inspection Standards:

- Inspection rates for **all** licensed facilities should be 100%
- Temporary restaurants must receive an inspection or a consultation (benevolent only)
- Problem and correction statements for violations noted on restaurant inspection reports must be clear and distinct
- OAR references for violations must be included on all hand-written inspection reports
- If a critical violation has been corrected, it must be clearly stated on the inspection report or a recheck inspection must be conducted

Enforcement Procedures:

- ORS 183 must be adopted for administrative hearings

Minimum Standards:

- All field staff must comply with minimum requirements of the Field Review protocol

Field Review Summary:
