Enrolling Refugees/Asylees in OregonContraceptiveCare

**Definition:** Refugees/asylees are people admitted to the U.S. because of a well-founded fear of persecution in their homeland due to race, religion, or political opinion, as determined by the United States Citizenship and Immigration Services (USCIS).

Refugees/asylees may enroll in OregonContraceptiveCare (CCare) as long as they meet all other eligibility requirements, including a household income at or below 250% FPL and a valid Social Security number (SSN).

In order to enroll in CCare, a client with refugee/asylee status must:

1. Complete the CCare Enrollment Form
   - Check Box 11 “Refugee/Asylee”

2. Provide proof of refugee/asylee status.
   - The most common form of documentation for refugees/asylees is the I-94 card, which is generally stapled to a page in the passport.
     - There are several versions of the I-94 card. For refugees/asylees, wording similar to the following may be printed or stamped on the I-94: “Refugee pursuant to section (number), employment authorized”.
     - Possible section numbers for refugees/asylees include “207”, “208”.
     - The I-94 card may also be marked “Visa 92” with the inscription “section 208” or “Visa 93” with the inscription “section 207”.
   - Other possible acceptable forms of documentation include the following:
     - I-551 marked AS1 through AS8, GA6, GA7, GA8
     - I-688B/I-766 annotated “274a.12(a)(5)”
     - I-551 marked AM1, AM2, AM3, CH6, CNP, CU0, CU6 through CU9, IC6, IC7, RE, RE1 through RE8
   - If the client presents a document for which you are unsure of its validity, please contact state CCare Program staff (contact information below).

In order to enroll a refugee/asylee client into CCare, clinic staff must:

1. Enter the client’s enrollment information into the CCare eligibility database and check “Yes” for the field “Refugee/Asylee (Clinic has photocopy of documentation)”. As with enrolling lawful permanent residents, there is no need to check a separate box to indicate the type of documentation obtained.

2. Make a photocopy of the client’s documentation of refugee/asylee status and store a copy in the client’s chart.

*Please contact state CCare Program staff with any questions:*
