Authority

# Reproductive Health Program Purpose

- The RH Program supports a diverse network of providers who help women and families achieve lifelong health and live productive lives.
- RH Program services contribute to fulfillment of the Triple Aim of better health, better care and lower costs in a dynamic health systems transformation environment.
- The RH Program ensures all Oregonians have access to high-quality, low-cost, client-centered, confidential RH services where and when they are needed.

# RH Program Funding

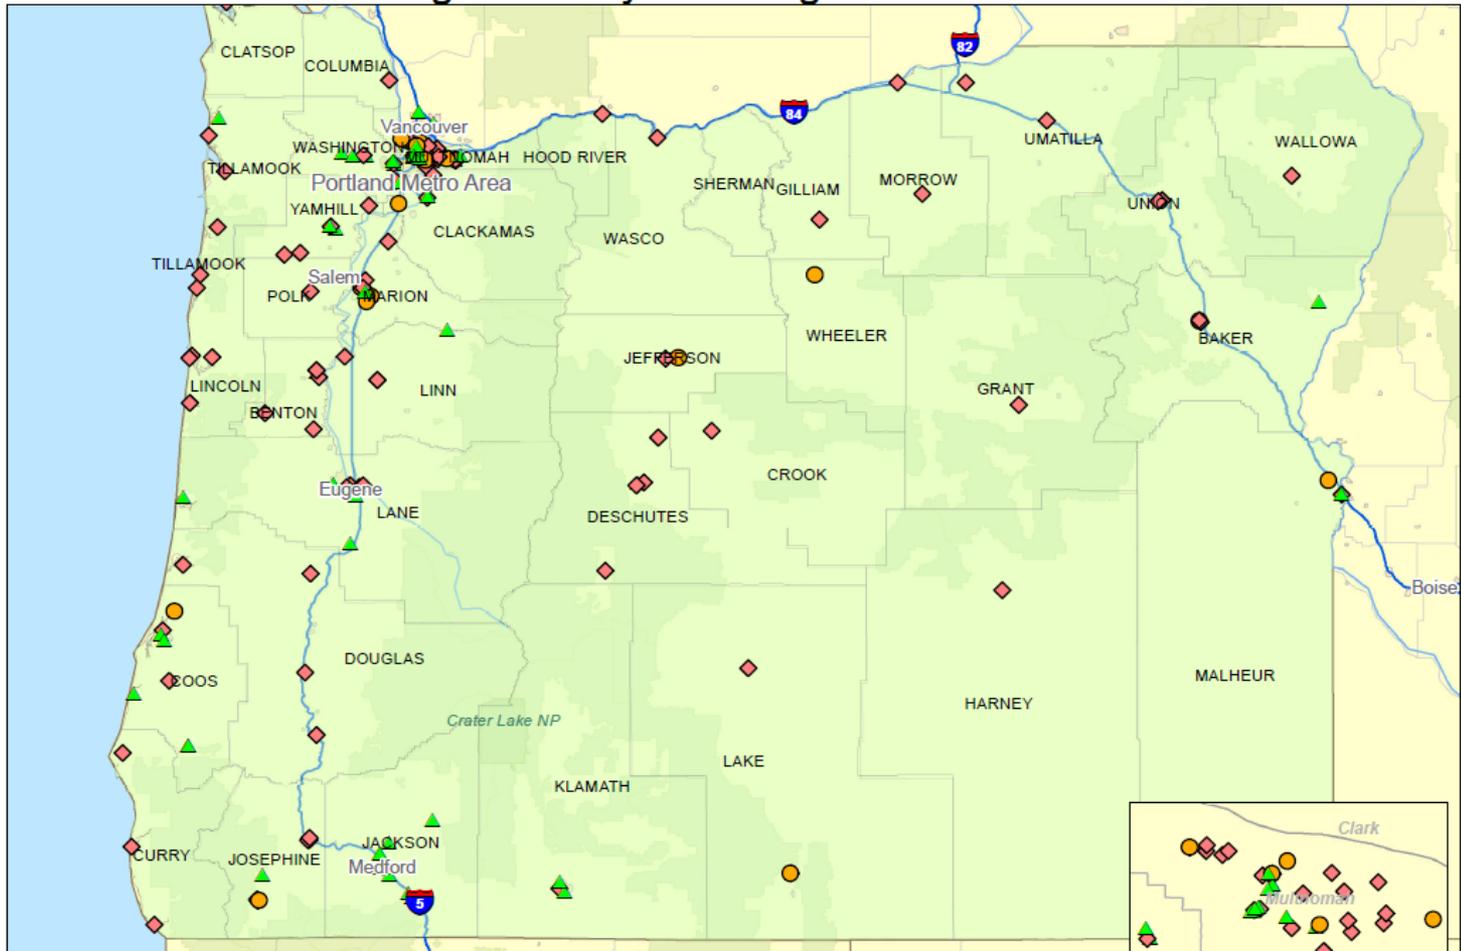

The Reproductive Health Program receives funding from two principal sources:

- Title X grant from the U.S. Department of Health and Human Services-Office of Population Affairs (HHS-OPA); and
- Medicaid (Title XIX) reimbursement through the Oregon **Contraceptive**Care (CCare), a section 1115 demonstration waiver.

	Title X	Oregon Contraceptive Care
Client Eligibility	<b>Client may not be denied service or be subjected to any variation of services based on inability to pay.</b>	<b>Client must qualify based on U.S. citizenship, Oregon residency, financial need, reproductive age, and insurance status.</b>
Citizenship	Not considered	U.S. citizen, lawful permanent resident for 5+ years, or refugee/asylee.
Residence	Not considered	Oregon resident
Income and Fee Assessment	<ul style="list-style-type: none"> <li>Based on number in household and household income.</li> <li>Minors (under 18): If receiving confidential services, use minor's income only.</li> <li><b>No charge at or below 100%</b> of federal poverty level (FPL).</li> <li><b>Use sliding fee scale for clients between 101% and 250% FPL.</b></li> <li>Priority for services given to persons from low-income families.</li> <li>Agency may establish policies to waive fees for specific circumstances.</li> </ul>	<ul style="list-style-type: none"> <li>Based on number in household and household income.</li> <li>Teens (under 20): May qualify on own income regardless of whether confidential services are requested.</li> <li><b>No charge at or below 250% FPL.</b></li> </ul>
Services Offered	<b>Broad range of reproductive health services.</b>	<b>Narrow definition of services: contraceptive management only.</b>

# Family Planning Provider Network

Oregon Family Planning Clinics 2012

- Oregon Family Planning Clinics**
- ▲ CCare-Only
  - Title X
  - ◆ Title X & CCare

Portland Metro Area

# Oregon Scores an 'A' for Access!

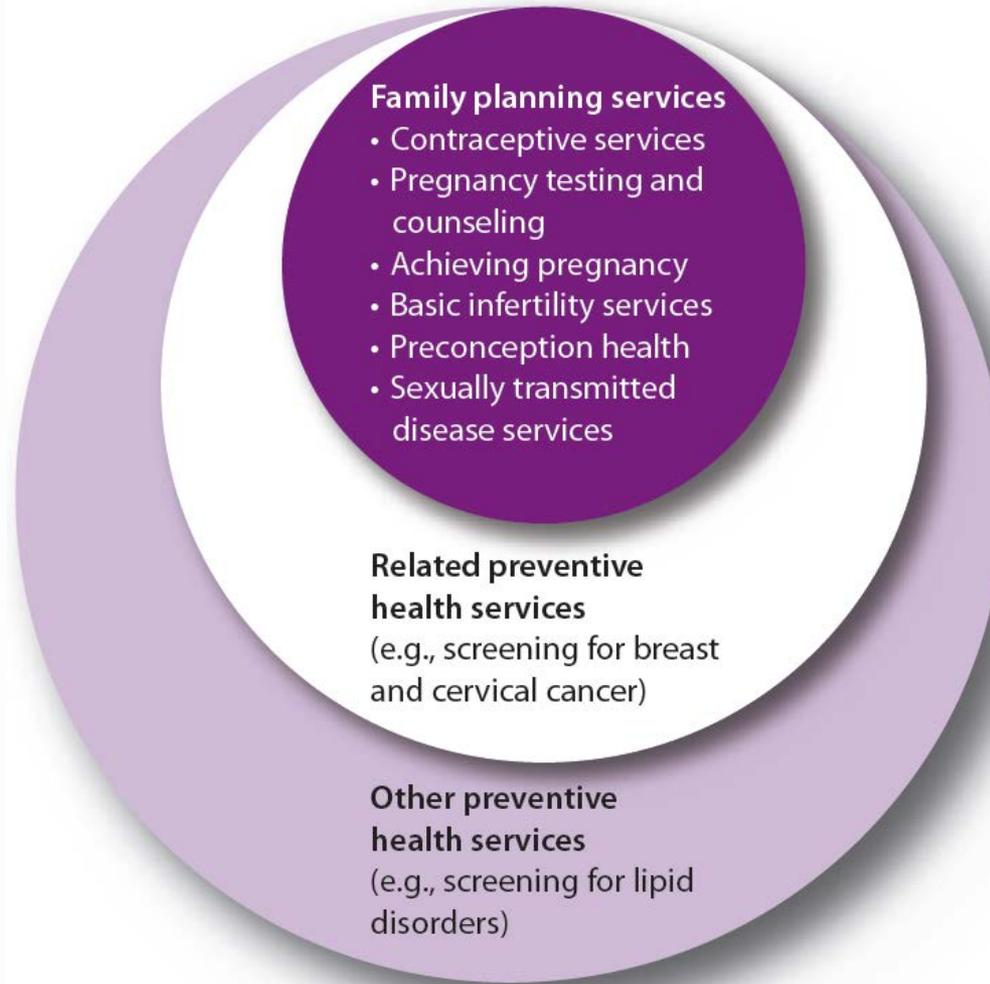

Just four states (California, New Mexico, Oregon and Washington) received an "A". Oregon received the highest composite score!

# Reproductive Health Program Priorities

- Oregon Preventive Reproductive Health Advisory Council
  - Standards and metrics related to the provision of contraceptive services across multiple health care settings
- Implementation of CDC/OPA *Providing Quality Family Planning Services*

# Family Planning Framework

# How Clients Benefit from Collaborations Between CCOs and Family Planning Clinics

- Strong relationships with other community-based health and social service providers;
- Experience and the ability to provide confidential services;
- Same day and/or walk-in access to contraceptive starts, emergency contraception, and STI services;
- Dispensing of a one-year supply of the client's preferred contraceptive method – on site;
- Experience reaching and serving individuals from diverse communities, including adolescents, post-partum and breastfeeding women, non- or limited-English speaking clients; and
- Over 40 years of specialized experience providing high quality services when, where and how clients need them.

# How CCOs Benefit from Collaborations with Family Planning Clinics

- Family planning clinics serve as a bridge to health care coverage for many women and adolescents.
- Family planning clinics represent a significant resource for CCOs that either don't have the expertise and/or the capacity to offer family planning services.
- Family planning clinics contribute to CCOs' ability to meet and exceed the new ECU incentive metric:
  - In this first year of tracking the metric, family planning services billed to MAP as FFS by family planning clinics will be attributed to the member's CCO regardless of contract status.
  - Beginning in 2016, contraceptive services billed directly to MAP as FFS *may* not count toward the incentive.
- Assurance that clients receive high quality family planning services based on national standards of care.

# Features of a CCO-Family Planning Collaboration

- Coordination of care through contracts or reciprocal referral agreements,
- Maintenance of patient confidentiality,
- Appropriate reimbursement, and
- Reimbursement for full scope of family planning services, including counseling, STI testing & treatment, immunizations, adolescent well visits, etc.
