

DANGER

UV RADIATION

- Avoid overexposure. As with natural sunlight, overexposure can cause eye and skin injury and allergic reactions. Repeated exposure may cause premature aging of the skin and/or skin cancer.
- Regular users should be routinely screened for skin cancer.

**FAILURE TO USE PROTECTIVE EYEWEAR
MAY RESULT IN SEVERE BURNS OR LONG-
TERM INJURY TO THE EYES.**

- Medications or cosmetics may increase your sensitivity to the ultraviolet radiation. Consult a physician before using a tanning device if you are using medications, have a history of skin problems or are sensitive to sunlight.
- If you do not tan in the sun, you are unlikely to tan from the use of this product.
- Tanning session frequency and time shall not exceed the device manufacturer's recommendations.
