

**The Future of Public Health Services Task Force**  
**February 2014**

Summary of Principles to guide Task Force recommendations:

- Promoting efficient, effective, accessible, high quality and financially sustainable governmental public health system for Oregon
- Continuing to serve and collaborate; supporting community priorities
- Enhancing transparency and flexibility
- Aligning with Oregon's Health System Transformation and the Triple Aim- better health, better health care, and lower costs
- Focusing on data driven outcomes, health equity and prevention
- Measuring performance and using best practices
