All information on the Preview screen is specific to the information reported at the time of death, unless the record has been changed through the amendments processes. The Preview will not show whether amendments have been made.

Letter	Description	Letter	Description
A	SFN – State File Number/Birth Certificate Number - If there is no SFN listed, the record is not yet registered as a vital record.	G	Spouse's Name - Name of the decedent's most recent spouse, if applicable
B	Place of Event - The county of the decedent's death	H	Informant Name - Name of the person who reported the decedent's personal information for the death certificate
C	Case Id - Sequential number assigned to the record for state processing.		
D	Medical Record Number - Displays the number of a decedent's medical record – optional field - Only intended for use by medical professionals	I	Medical Certifier - Name of the doctor or medical examiner who provided the medical information
E	ME Case Number - The number assigned by the Medical Examiner (ME), if applicable - Only intended for use by medical professionals	J	Status - Most of the status is not applicable to your work - The last section will state 'Converted' if the record was converted from the mainframe.*
F	Decedent's Alias - Displays other names used by the decedent		

*A record with a date of death before 2006 was originally entered into the mainframe and has been transferred into OVERS.
