Updated 01-2013

What is OVERS?

- Web-based database for maintenance of vital records
- Replaces the mainframe for birth and death records beginning January 28, 2013
- Marriage and divorce records remain on the mainframe
- Revised functionality will be released in Spring 2013

Objectives

 - Successfully log in to OVERS
 - Locate birth and death records in OVERS
 - Access helpful materials and contact OVERS with questions

Confidentiality of Vital Records

- Confidentiality of vital records is different from most client records. A client cannot authorize the release of vital records.
- The Center for Health Statistics has authorized use and release of vital records information for circumstances where the employee is required to use the information for official duties only.
- Vital record information may not be released to *anyone* unless the release is for official tasks.
