

2012 Living Well County Data

Crook County

Fact Sheet

INTRODUCTION

This report includes several evidence-based chronic disease self-management programs developed by the Stanford Patient Education Research Center.

They are all currently offered in Oregon:

- ***Living Well with Chronic Conditions*** is Oregon's name for the English-language version of the Stanford Chronic Disease Self-Management Program (CDSMP). It is a six-week, peer-led workshop for people with one or more chronic conditions and their support people.
- ***Tomando Control de su Salud (Tomando Control)*** is the culturally adapted, Spanish-language version of CDSMP. It is also a six-week, peer-led workshop for people living with one or more chronic conditions and their support people.
- ***Positive Self-Management Program (PSMP)*** is a seven-week, peer-led workshop designed specifically for people living with HIV/AIDS and their support people. PSMP is also offered in Spanish.
- ***Diabetes Self-Management Program (DSMP)*** is a six-week, peer-led workshop designed specifically for people living with diabetes and their support people.

The Oregon Health Authority (OHA) supports and collects data on Living Well, Tomando Control and the PSMP program. OHA does not currently support the DSMP curriculum; however, organizations providing DSMP voluntarily data for this report.

PARTICIPANTS

Since 2006, 79 people have filled out all or part of a short demographic form at the initial session of a Living Well, Tomando Control, PSMP or DSMP workshop in Crook County. In 2012, Crook County participants reported having an average of 4.7 chronic conditions.

WORKSHOPS

Since 2006, Crook County has reported data on 10 Living Well workshops and one Tomando Control workshop. Most Crook County workshops were held at health care and other types of facilities.

All workshops (Living Well, Tomando Control)

LEADERS

In Crook County, 11 leaders have been trained in one or more Stanford programs. Of those, nine leaders were trained in Living Well and two in Tomando Control. Leaders can be trained in more than one program. Of these trained leaders, nine (82 percent) have led one or more workshops.
