Objectives for 9/23 HAIAC meeting:

- Review findings from 2014 NHSN Annual Report
- Solicit feedback on making data more actionable
- Introduce CDC-funded on-site facility consultations for infection prevention
- Solicit feedback on approach to consultations and integration into State HAI Plan

Discussion points: NHSN annual report

- How to define outlier facilities for prevention action?
 - Potential benchmarks: HHS targets, national baselines, current national data
 - Different criteria for small vs. large hospitals?
- What should OHA's role in be in following up with outlier facilities?
- Absent resources for external validation, how do we distinguish good surveillance from poor performance?

Discussion points: CDC/OHA funded facility consultation

- How do we systematically select facilities for IP consultations?
- How should we approach facilities selected for consultations?
