**RULE SUMMARY**

The Oregon Health Authority (Authority), Public Health Division is proposing to permanently adopt administrative rules in chapter 333, division 16 related to high priority chemicals of concern for children's health.

SB 478 (Oregon Laws 2015, chapter 786) was passed by the Oregon Legislature during the 2015 legislative session. The law requires the Authority to develop rules to implement the Toxic Free Kids Program. These proposed rules require manufacturers of children's products to disclose high priority chemicals of concern for children's health used in children's products that are sold or offered for sale in Oregon. The proposed rules establish requirements for disclosure; a process for manufacturers to apply for an exemption from the disclosure requirements; and describe the Authority's civil penalty authority and enforcement process should a manufacturer not comply with the requirements of the rules.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing negative economic impact of the rule on business.
