Babies First!

**Babies First! Nurses
work in your county to
prevent poor health and
development outcomes
for children**

**Information for
Medical Professionals
and Service Providers**

Babies First!

The Population We Serve:

Children birth to age five with health and social histories that place the child at risk for health and development problems.

Administration

Babies First! is administered by local public health agencies in thirty-four Oregon counties. The Oregon Department of Human Services, Office of Family Health, provides oversight and support to the local providers. The program is designed within a public health nursing model. Families are visited in their homes and receive services from public health nurses.

Nurses visit family homes and provide the following:

- Developmental Screening
- Monitoring of Growth
- Hearing, Vision and Dental Screening
- Parent Child Interaction Assessment
- Immunization Assessment
- Assessment of Learning Opportunities and Safety in the Home
- Referral for Medical Care and Social Services as Needed
- Education on Health Topics
- Case Management Services
- Consultation to Other Service Providers such as Healthy Start Family Support Workers
- Sudden Infant Death Syndrome (SIDS) Support Services
