## Federal Title X Requirements

## B.1

### Introduction

Title X was enacted as the Family Planning Services and Population Research Act of 1970 (Public Law 91-572) to assist individuals in determining the number and spacing of their children through the provision of affordable, voluntary family planning services.

The Title X Family Planning Program is the only Federal program dedicated solely for the provision of family planning and related preventive health services. The program is designed to provide contraceptive supplies and information to all who want and need them, with priority given to persons from low income families.

All Title X funded projects (sub-recipients) are required to offer a broad range of acceptable and medically effective FDA-approved contraceptive methods, and related services, on a voluntary and confidential basis. Title X services include the delivery of related preventive health services, such as patient education and counseling; cervical and breast cancer screening; sexually transmitted infection (STI) and human immunodeficiency virus (HIV) prevention education, testing, and referral; and pregnancy diagnosis and counseling. By law, Title X funds may not be used in programs where abortion is a method of family planning.

#### Title X Definitions

**Family Planning:** When an individual can determine freely the number and spacing of children.

**Reproductive Health Services:** Clinical, informational, educational, social, and referral services offered to anyone of reproductive age requesting family planning and reproductive health care.

The Title X Family Planning Program is federally administered by the Office of Population Affairs (OPA), Office of the Assistant Secretary for Health (OASH), within the U.S. Department of Health and Human Services (HHS).

The Title X Family Planning Guidelines consist of two parts, 1) Program Requirements for Title X Funded Family Planning Projects (hereafter referred to as Title X Program Requirements), and 2) Providing Quality Family Planning Services: Recommendations of CDC and the U.S. Office of Population Affairs (hereafter referred to as QFP) ([Exhibit B-1](#)).

## ACRONYMS

The following is a list of acronyms and abbreviations used throughout this document.

ACRONYM/ ABBREVIATION	
CFR	Code of Federal Regulations
FDA	U.S. Food and Drug Administration
FPL	Federal Poverty Level
HHS	U.S. Department of Health and Human Services
HIV	Human Immunodeficiency Virus
I&E	Information and Education
NOA	Notice of Award
OASH	Office of the Assistant Secretary for Health
OGM	Office of Grants Management
OMB	Office of Management and Budget
OPA	Office of Population Affairs
OSHA	Occupational Safety and Health Administration
PHS	U.S. Public Health Service
STD	Sexually Transmitted Disease

## COMMONLY USED REFERENCES

As a Federal grant program, requirements for the Title X Family Planning Program are established by Federal law and regulations. For ease of reference, the law and regulations most cited in this document are listed below. Other applicable regulations and laws are cited throughout the document.

## INTRODUCTION

To assist individuals in determining the number and spacing of their children through the provision of affordable, voluntary family planning services, Congress enacted the Family Planning Services and Population Research Act of 1970 (Public Law 91-572). The law amended the Public Health Service (PHS) Act to add Title X, "Population Research and Voluntary Family Planning Programs." Section 1001 of the PHS Act (as amended) authorizes grants "to assist in the establishment and operation of voluntary family planning projects which shall offer a broad range of acceptable and effective family planning methods and services (including natural family planning methods, infertility services, and services for adolescents)."

The Title X Family Planning Program is the only Federal program dedicated solely to the provision of family planning and related preventive health services. The program is designed to provide contraceptive supplies and information to all who want and need them, with priority given to persons from low-income families. All Title X-funded projects are required to offer a broad range of acceptable and effective medically (U.S. Food and Drug Administration (FDA)) approved contraceptive methods and related services on a voluntary and confidential basis. Title X services include the delivery of related preventive health services, including patient education and counseling; cervical and breast cancer screening; sexually transmitted disease (STD) and human immunodeficiency virus (HIV) prevention education, testing, and referral; and pregnancy diagnosis and counseling. By law, Title X funds may not be used in programs where abortion is a method of family planning.

The Title X Family Planning Program is administered by the Office of Population Affairs (OPA), Office of the Assistant Secretary for Health (OASH), within the U.S. Department of Health and Human Services (HHS). OASH is responsible for facilitating the process of evaluating applications and setting funding levels according to the criteria set forth in 42 CFR 59.7(a). Final award decisions are made by the Regional Health Administrator for the applicable Public Health Service Region in consultation with the Deputy Assistant Secretary for Population Affairs and the Assistant Secretary for Health or their designees. The HHS Regional Offices monitor program performance of Title X grantees in each respective region.

The Title X Family Planning Guidelines consist of two parts, 1) *Program Requirements for Title X Funded Family Planning Projects* (hereafter referred to as *Title X Program Requirements*) and 2) *Providing Quality Family Planning Services: Recommendations of CDC and the U.S. Office of Population Affairs*.

These documents have been developed to assist current and prospective grantees in understanding and implementing the family planning services grants program authorized by Title

X of the PHS Act (42 U.S.C. 300 *et seq.*). These documents also form the basis for monitoring projects under the Title X program.

## **OVERVIEW OF PROGRAM REQUIREMENTS**

This document is organized into 16 sections that describe the various requirements applicable to the Title X program, as set out in the Title X statute and implementing regulations (42 CFR part 59, subpart A), and in other applicable Federal statutes, regulations, and policies. Links to the Title X statute and implementing regulations, other statutory provisions that are applicable to the Title X program, regulations related to sterilization, and additional resources to maximize the quality of services offered by Title X projects are provided on page 2 of this document.

The concise explanation of general program requirements that follows can be used to help prepare a grant application or monitor funded programs for compliance with Title X requirements. In addition, prospective applicants and grantees should consult all of the resources and references identified in this document for more complete information and to ensure that the project application and program operations comply with these and other Federal requirements.

Additional documents, including the annual *Announcement of Anticipated Availability of Funds for Family Planning Services Grants* (Title X Funding Opportunity Announcement), other Funding Opportunity Announcements for OPA priority areas, and relevant language in Federal appropriations laws, contain the most current information about Title X program requirements and are generally updated annually. The Title X Funding Opportunity Announcement includes the most recent list of program priorities and key issues, and identifies geographic areas where there will be a grant competition for the applicable fiscal year. Subject to the availability of funds, the funding announcement is published annually and posted on the HHS [Grants.gov](http://www.hhs.gov/grants) Website Portal. The *Program Requirements for Title X Funded Family Planning Projects* is posted on the OPA website (<http://www.hhs.gov/opa>). In general, the requirements that apply to the direct recipients of Title X funds also apply to sub-recipients and contractors (HHS Grants Policy Statement, 2007).

### **1. APPLICABILITY**

As stated above, the requirements set forth in this document apply to the award of grants under section 1001 of the PHS Act (42 U.S.C. 300) to assist in the establishment and operation of voluntary family planning projects. These projects consist of the educational, comprehensive medical, and social services necessary to aid individuals to determine freely the number and spacing of their children (42 CFR 59.1).

### **2. DEFINITIONS**

Terms used throughout this document include:

<b>TERM</b>	<b>DEFINITION</b>
<b>The Act or Law</b>	Title X of the Public Health Service Act, as amended
<b>Family</b>	A social unit composed of one person, or two or more persons living together, as a household
<b>Low-income family</b>	A family whose total annual income does not exceed 100% of the most recent Federal Poverty Guidelines; also includes members of families whose annual family income exceeds this amount, but who, as determined by the project director, are unable, for good reasons, to pay for family planning services. Unemancipated minors who wish to receive services on a confidential basis must be considered on the basis of their own resources
<b>Grantee</b>	The entity that receives Federal financial assistance via a grant and assumes legal and financial responsibility and accountability for the awarded funds and for the performance of the activities approved for funding
<b>Nonprofit</b>	Any private agency, institution, or organization for which no part of the entity's net earnings benefit, or may lawfully benefit, any private stakeholder or individual.
<b>Project</b>	Activities described in the grant application and any incorporated documents supported under the approved budget. The "scope of the project" as defined in the funded application consists of activities that the total approved grant-related project budget supports.
<b>Secretary</b>	The Secretary of Health and Human Services and any other officer or employee of the U.S. Department of Health and Human Services to whom the authority involved has been delegated.
<b>Service Site</b>	The clinics or other locations where services are provided by the grantee or sub-recipient.
<b>Sub-recipients</b>	Those entities that provide family planning services with Title X funds

	under a written agreement with a grantee. May also be referred to as delegates or contract agencies.
<b>State</b>	Includes the 50 United States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the U.S. Outlying Islands (Mid-way, Wake, et. al), the Marshall Islands, the Federated States of Micronesia and the Republic of Palau.

### 3. ELIGIBILITY

Any public or nonprofit private entity located in a state (which includes the 50 United States, the District of Columbia, Guam, the Commonwealth of Puerto Rico, the Northern Mariana Islands, the U.S. Virgin Islands, American Samoa, the U.S. Outlying Islands (Mid-way, Wake, et. al), the Marshall Islands, the Federated States of Micronesia and the Republic of Palau) is eligible to apply for a Title X family planning services project grant (42 CFR 59.2, 42 CFR 59.3).

Even where states apply for a family planning services grant, local and regional entities may also apply directly to the Secretary for a family planning services grant. Faith-based organizations and American Indian/Alaska Native/Native American organizations are eligible to apply for Title X family planning services grants. Private nonprofit entities must provide proof of nonprofit status during the application process.

Although State agencies are eligible for funding, the Title X statute specifically protects the right of local and regional entities to apply directly to the Secretary for a family planning services grant (Section 1001(b), PHS Act).

### 4. APPLICATION

The Office of Population Affairs publishes, at a minimum, an annual announcement of the availability of Title X family planning services grant funds that sets forth specific application requirements and evaluation criteria. Applications must be submitted to OASH, Office of Grants Management (OGM) on the forms required by HHS, in the manner required, and approved by an individual authorized to act for the applicant. The application process is conducted through an electronic grants system.

If an application relates to consolidation of service areas or health resources or would otherwise affect the operations of local or regional entities, the applicant must document that these entities have been given, to the maximum feasible extent, an opportunity to participate in the development of the application. Local and regional entities include existing or potential sub-

recipients that have previously provided or propose to provide family planning services to the area to be served by the applicant (42 CFR 59.5 (a)(10)(i)).

Unless otherwise instructed, applicants should respond to the standard instructions contained in the grant application package as well as any HHS supplemental instructions.

Successful applications must include:

- a narrative description of the project and the manner in which the applicant intends to conduct the project and comply with all requirements of the law and regulations;
- a budget that includes an estimate of project income and costs, with justification of the amount of grant funds requested (42 CFR 59.4(c)(2)) and which is consistent with the terms of Section 1006(a) of the Act, as implemented by regulation (42 CFR 59.7(b));
- a description of the standards and qualifications the project will use for all personnel and facilities; and
- other pertinent information as may be required by the Secretary (42 CFR 59.4(c)(4)).

Title X grant funds cannot constitute 100% of a project's estimated costs; therefore, applicants must clearly specify all other sources of funding that will be used to support the Title X project (42 CFR 59.7(c)).

## **5. CRITERIA FOR FUNDING**

Within the limits of funds available for these purposes, grants are awarded for the establishment and operation of projects that will best promote the purposes of Section 1001 of Title X of the PHS Act. The application must address all seven points contained in section 59.7(a) of the regulations. These are the criteria HHS uses to determine which family planning projects to fund and in what amount.

In making funding decisions, HHS takes into account:

- the number of patients, and, in particular, the number of low-income patients to be served;
- the extent to which family planning services are needed locally;
- the relative need of the applicant;
- the capacity of the applicant to make rapid and effective use of the Federal assistance;
- the adequacy of the applicant's facilities and staff;
- the relative availability of non-Federal resources within the community to be served and the degree to which those resources are committed to the project; and
- the degree to which the project plan adequately provides for the requirements set forth in the Title X regulations.

Funding of applications that propose to rely on other entities to provide services will take into

consideration the extent to which the applicant indicates it will be inclusive in considering all entities that are eligible to receive Federal funds to best serve individuals in need throughout the anticipated service areas.

## **6. NOTICE OF AWARD**

The Notice of Award (NOA) is the document that informs the grantee of the duration of HHS support for the project without requiring it to re compete for funds (42 CFR 59.8 (a)). This period of funding is called the “project period.” The project is generally funded in increments known as “budget periods.” Each budget period is typically 12 months, although shorter or longer budget periods may be established for compelling administrative or programmatic reasons.

Decisions regarding whether and at what level to continue awards are based on factors such as the adequacy of the grantee’s programmatic progress, management practices, compliance with the terms and conditions of the previous award, program priorities, and the availability of appropriations. In all cases, subsequent budget periods, also known as non-completing continuation awards, require a determination by HHS that continued funding is in the best interest of the government.

The U.S. government is not obligated to make any additional, supplemental, continuation, or other award with respect to any approved application or portion of an approved application (42 CFR 59.8(c)).

Grantees must provide the awarding agency with timely and unrestricted access to examine all records, books, papers, and documents related to the award (45 CFR 74.53 and 92.42). Records must be maintained generally for 3 years from submission of the final federal financial report (45 CFR 74.53)

## **7. USE OF GRANT FUNDS**

All funds granted for Title X family planning services projects must be expended only for the purpose for which the funds were awarded and in accordance with the approved application and budget. Funds may not be used for prohibited activities, such as abortion as a method of family planning, or lobbying. The Notice of Award (NOA) provides other stipulations regarding the use of funds. Funds must be used in accordance with the Title X family planning services projects regulations, the terms and conditions of the award, and the HHS grants administration regulations set out at 45 CFR parts 74 and 92.

## **8. PROJECT MANAGEMENT AND ADMINISTRATION**

All projects receiving Title X funds must provide services of high quality and be competently and efficiently administered.

### **8.1 Voluntary Participation**

Family planning services are to be provided solely on a voluntary basis (Sections 1001 and 1007, PHS Act; 42 CFR 59.5 (a)(2)). Clients cannot be coerced to accept services or to use or not use any particular method of family planning (42 CFR 59.5 (a)(2)).

A client's acceptance of family planning services must not be a prerequisite to eligibility for, or receipt of, any other services, assistance from, or participation in any other program that is offered by the grantee or sub-recipient (Section 1007, PHS Act; 42 CFR 59.5 (a)(2)).

Personnel working within the family planning project must be informed that they may be subject to prosecution if they coerce or try to coerce any person to undergo an abortion or sterilization procedure (Section 205, Public Law 94-63, as set out in 42 CFR 59.5(a)(2) footnote 1).

## **8.2 Prohibition of Abortion**

Title X grantees and sub-recipients must be in full compliance with Section 1008 of the Title X statute and 42 CFR 59.5(a)(5), which prohibit abortion as a method of family planning. Grantees and sub-recipients must have written policies that clearly indicate that none of the funds will be used in programs where abortion is a method of family planning. Additional guidance on this topic can be found in the July 3, 2000, Federal Register Notice entitled *Provision of Abortion-Related Services in Family Planning Services Projects*, which is available at 65 Fed. Reg. 41281, and the final rule entitled *Standards of Compliance for Abortion-Related Services in Family Planning Services Projects*, which is available at 65 Fed. Reg. 41270.

Grantees are also responsible for monitoring sub-recipients' compliance with this section.

## **8.3 Structure and Management**

Family planning services under a Title X grant may be offered by grantees directly and/or by sub-recipient agencies operating under the umbrella of a grantee. However, the grantee is accountable for the quality, cost, accessibility, acceptability, reporting, and performance of the grant-funded activities provided by sub-recipients. Where required services are provided by referral, the grantee is expected to have written agreements for the provision of services and reimbursement of costs as appropriate.

8.3.1 The grantee must have a written agreement with each sub-recipient and establish written standards and guidelines for all delegated project activities consistent with the appropriate section(s) of the Title X Program Requirements, as well as other applicable requirements (45 CFR parts 74 and 92).

8.3.2 If a sub-recipient wishes to subcontract any of its responsibilities or services, a written agreement that is consistent with Title X Program Requirements and approved by the grantee must be maintained by the sub-recipient (45 CFR parts 74 and 92).

- 8.3.3 The grantee must ensure that all services purchased for project participants will be authorized by the project director or his designee on the project staff (42 CFR 59.5(b)(7)).
- 8.3.4 The grantee must ensure that services provided through a contract or other similar arrangement are paid for under agreements that include a schedule of rates and payment procedures maintained by the grantee. The grantee must be prepared to substantiate that these rates are reasonable and necessary (42 CFR 59.5(b)(9)).
- 8.3.5 Sub-recipient agencies must be given an opportunity to participate in the establishment of ongoing grantee policies and guidelines (42 CFR 59.5 (a)(10)).
- 8.3.6 The grantee and each sub-recipient must maintain a financial management system that meets Federal standards, as applicable, as well as any other requirements imposed by the Notice of Award, and which complies with Federal standards that will support effective control and accountability of funds. Documentation and records of all income and expenditures must be maintained as required (45 CFR parts 74.20 and 92.20).

#### **8.4 Charges, Billing, and Collections**

The grantee is responsible for the implementation of policies and procedures for charging, billing, and collecting funds for the services provided by the projects. Clients must not be denied project services or be subjected to any variation in quality of services because of inability to pay.

Projects should not have a general policy of no fee or flat fees for the provision of services to minors, or a schedule of fees for minors that is different from other populations receiving family planning services

- 8.4.1 Clients whose documented income is at or below 100% of the Federal Poverty Level (FPL) must not be charged, although projects must bill all third parties authorized or legally obligated to pay for services (Section 1006(c)(2), PHS Act; 42 CFR 59.5(a)(7)).

Within the parameters set out by the Title X statute and regulations, Title X grantees have a large measure of discretion in determining the extent of income verification activity that they believe is appropriate for their client population. Although not required to do so, grantees that have lawful access to other valid means of income verification because of the client's participation in another program may use those data rather than re-verify income or rely solely on clients self-report.

- 8.4.2 A schedule of discounts, based on ability to pay, is required for individuals with family

incomes between 101% and 250% of the FPL (42 CFR 59.5(a)(8)).

- 8.4.3 Fees must be waived for individuals with family incomes above 100% of the FPL who, as determined by the service site project director, are unable, for good cause, to pay for family planning services (42 CFR 59.2).
- 8.4.4 For persons from families whose income exceeds 250% of the FPL, charges must be made in accordance with a schedule of fees designed to recover the reasonable cost of providing services. (42 CFR 59.5(a)(8)).
- 8.4.5 Eligibility for discounts for unemancipated minors who receive confidential services must be based on the income of the minor (42 CFR 59.2).
- 8.4.6 Where there is legal obligation or authorization for third party reimbursement, including public or private sources, all reasonable efforts must be made to obtain third party payment without the application of any discounts(42 CFR 59.5(a)(9)).

Family income should be assessed before determining whether copayments or additional fees are charged. With regard to insured clients, clients whose family income is at or below 250% FPL should not pay more (in copayments or additional fees) than what they would otherwise pay when the schedule of discounts is applied.

- 8.4.7 Where reimbursement is available from Title XIX or Title XX of the Social Security Act, a written agreement with the Title XIX or the Title XX state agency at either the grantee level or sub-recipient agency is required (42 CFR 59.5(a)(9)]
- 8.4.8 Reasonable efforts to collect charges without jeopardizing client confidentiality must be made.
- 8.4.9 Voluntary donations from clients are permissible; however, clients must not be pressured to make donations, and donations must not be a prerequisite to the provision of services or supplies.

## **8.5 Project Personnel**

Title X grantees must have approved personnel policies and procedures.

- 8.5.1 Grantees and sub-recipients are obligated to establish and maintain personnel policies that comply with applicable Federal and State requirements, including Title VI of the Civil Rights Act, Section 504 of the Rehabilitation Act of 1973, Title I of the Americans with Disabilities Act, and the annual appropriations language. These policies should include,

but are not to be limited to, staff recruitment, selection, performance evaluation, promotion, termination, compensation, benefits, and grievance procedures.

- 8.5.2 Project staff should be broadly representative of all significant elements of the population to be served by the project, and should be sensitive to, and able to deal effectively with, the cultural and other characteristics of the client population (42 CFR 59.5 (b)(10)).
- 8.5.3 Projects must be administered by a qualified project director. Change in Status, including Absence, of Principal Investigator/Project Director and Other Key Personnel requires pre-approval by the Office of Grants Management. For more information, see HHS Grants Policy Statement, 2007 Section II-54.
- 8.5.4 Projects must provide that family planning medical services will be performed under the direction of a physician with special training or experience in family planning (42 CFR 59.5 (b)(6)).
- 8.5.5 Appropriate salary limits will apply as required by law.

## **8.6 Staff Training and Project Technical Assistance**

Title X grantees are responsible for the training of all project staff. Technical assistance may be provided by OPA or the Regional Office.

- 8.6.1 Projects must provide for the orientation and in-service training of all project personnel, including the staff of sub-recipient agencies and service sites (42 CFR 59.5(b)(4)).
- 8.6.2 The project's training plan should provide for routine training of staff on Federal/State requirements for reporting or notification of child abuse, child molestation, sexual abuse, rape or incest, as well as on human trafficking
- 8.6.3 The project's training plan should provide for routine training on involving family members in the decision of minors to seek family planning services and on counseling minors on how to resist being coerced into engaging in sexual activities.

## **8.7 Planning and Evaluation**

Grantees must ensure that the project is competently and efficiently administered (42 CFR 59.5 (b) (6) and (7)). In order to adequately plan and evaluate program activities, grantees should develop written goals and objectives for the project period that are specific, measurable, achievable, realistic, time-framed, and which are consistent with Title X Program Requirements. The program plan should be based on a needs assessment. Grantee project plans must include an evaluation component that identifies indicators by which the program measures the

achievement of its objectives. For more information on quality improvement, see *Providing Quality Family Planning Services: Recommendations of CDC and the U.S. Office of Population Affairs*.

## **9. PROJECT SERVICES AND CLIENTS**

Projects funded under Title X are intended to enable all persons who want to obtain family planning care to have access to such services. Projects must provide for comprehensive medical, informational, educational, social, and referral services related to family planning for clients who want such services.

- 9.1 Priority for project services is to persons from low- income families (Section 1006(c)(1), PHS Act; 42 CFR 59.5(a)(6)).
- 9.2 Services must be provided in a manner which protects the dignity of the individual (42 CFR 59.5 (a)(3)).
- 9.3 Services must be provided without regard to religion, race, color, national origin, disability, age, sex, number of pregnancies, or marital status (42 CFR 59.5 (a)(4)).
- 9.4 Projects must provide for social services related to family planning including counseling, referral to and from other social and medical services agencies, and any ancillary services which may be necessary to facilitate clinic attendance (42 CFR 59.5 (b)(2)).
- 9.5 Projects must provide for coordination and use of referral arrangements with other providers of health care services, local health and welfare departments, hospitals, voluntary agencies, and health services projects supported by other federal programs (42 CFR 59.5 (b)(8)).
- 9.6 All grantees should assure services provided within their projects operate within written clinical protocols that are in accordance with nationally recognized standards of care, approved by the grantee, and signed by the physician responsible for the service site.
- 9.7 All projects must provide for medical services related to family planning and the effective usage of contraceptive devices and practices (including physician's consultation, examination, prescription, and continuing supervision, laboratory examination, contraceptive supplies) as well as necessary referrals to other medical facilities when medically indicated (42 CFR 59.5(b)(1)). This includes, but is not limited to emergencies that require referral. Efforts may be made to aid the client in finding potential resources for reimbursement of the referral provider, but projects are not responsible for the cost of

this care.

- 9.8 All projects must provide a broad range of acceptable and effective medically approved family planning methods (including natural family planning methods) and services (including infertility services and services for adolescents). If an organization offers only a single method of family planning, it may participate as part of a project as long as the entire project offers a broad range of family planning services. (42 CFR 59.5(a)(1)).
- 9.9 Services must be provided without the imposition of any durational residency requirement or requirement that the client be referred by a physician (42 CFR 59.5(b)(5)).
- 9.10 Projects must provide pregnancy diagnosis and counseling to all clients in need of this service (42 CFR 59.5(a)(5)).
- 9.11 Projects must offer pregnant women the opportunity to be provided information and counseling regarding each of the following options:
- prenatal care and delivery;
  - infant care, foster care, or adoption; and
  - pregnancy termination.

If requested to provide such information and counseling, provide neutral, factual information and nondirective counseling on each of the options, and referral upon request, except with respect to any options(s) about which the pregnant woman indicates she does not wish to receive such information and counseling (42 CFR 59.5(a)(5)).

- 9.12 Title X grantees must comply with applicable legislative mandates set out in the HHS appropriations act. Grantees must have written policies in place that address these legislative mandates:

“None of the funds appropriated in the Act may be made available to any entity under Title X of the Public Health Service Act unless the applicant for the award certifies to the Secretary of Health and Human Services that it encourages family participation in the decision of minors to seek family planning services and that it provides counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities.”

“Notwithstanding any other provision of law, no provider of services under Title X of the Public Health Service Act shall be exempt from any State law requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, or incest.”

## **10. CONFIDENTIALITY**

Every project must have safeguards to ensure client confidentiality. Information obtained by the project staff about an individual receiving services may not be disclosed without the individual's documented consent, except as required by law or as may be necessary to provide services to the individual, with appropriate safeguards for confidentiality. Information may otherwise be disclosed only in summary, statistical, or other form that does not identify the individual (42 CFR 59.11).

## **11. COMMUNITY PARTICIPATION, EDUCATION, AND PROJECT PROMOTION**

Title X grantees are expected to provide for community participation and education and to promote the activities of the project.

- 11.1 Title X grantees and sub-recipient agencies must provide an opportunity for participation in the development, implementation, and evaluation of the project by persons broadly representative of all significant elements of the population to be served; and by persons in the community knowledgeable about the community's needs for family planning services (42 CFR 59.5(b)(10)).
- 11.2 Projects must establish and implement planned activities to facilitate community awareness of and access to family planning services (42 CFR 59.5(b)(3)). Each family planning project must provide for community education programs (42 CFR 59.5(b)(3)). The community education program(s) should be based on an assessment of the needs of the community and should contain an implementation and evaluation strategy.
- 11.3 Community education should serve to enhance community understanding of the objectives of the project, make known the availability of services to potential clients, and encourage continued participation by persons to whom family planning may be beneficial (42 CFR 59.5 (b)(3)).

## **12. INFORMATION AND EDUCATION MATERIALS APPROVAL**

Every project is responsible for reviewing and approving informational and educational materials. The Information and Education (I&E) Advisory Committee may serve the community participation function if it meets the requirements, or a separate group may be identified .

- 12.1 Title X grantees and sub-recipient agencies are required to have a review and approval process, by an Advisory Committee, of all informational and educational materials developed or made available under the project prior to their distribution (Section 1006

(d)(2), PHS Act; 42 CFR 59.6(a)).

- 12.2 The committee must include individuals broadly representative (in terms of demographic factors such as race, color, national origin, handicapped condition, sex, and age) of the population or community for which the materials are intended (42 CFR 59.6 (b)(2)).
- 12.3 Each Title X grantee must have an Advisory Committee of five to nine members, except that the size provision may be waived by the Secretary for good cause shown (42 CFR 59.6(b)(1)). This Advisory Committee must review and approve all informational and educational (I&E) materials developed or made available under the project prior to their distribution to assure that the materials are suitable for the population and community for which they are intended and to assure their consistency with the purposes of Title X (Section 1006(d)(1), PHS Act; 42 CFR 59.6(a)).
- 12.4 The grantee may delegate I&E functions for the review and approval of materials to sub-recipient agencies; however, the oversight of the I&E review process rests with the grantee.
- 12.5 The Advisory Committee(s) may delegate responsibility for the review of the factual, technical, and clinical accuracy to appropriate project staff; however, final responsibility for approval of the I&E materials rests with the Advisory Committee.
- 12.6 The I&E Advisory Committee(s) must:
- consider the educational and cultural backgrounds of the individuals to whom the materials are addressed;
  - consider the standards of the population or community to be served with respect to such materials;
  - review the content of the material to assure that the information is factually correct;
  - determine whether the material is suitable for the population or community to which it is to be made available; and
  - establish a written record of its determinations (Section 1006(d), PHS Act; 42 CFR 59.6(b)).

### **13. ADDITIONAL ADMINISTRATIVE REQUIREMENTS**

This section addresses additional requirements that are applicable to the Title X program and are set out in authorities other than the Title X statute and implementing regulations.

#### **13.1 Facilities and Accessibility of Services**

Title X service sites should be geographically accessible for the population being served. Grantees should consider clients' access to transportation, clinic locations, hours of operation, and other factors that influence clients' abilities to access services.

Title X clinics must have written policies that are consistent with the HHS Office for Civil Rights policy document, *Guidance to Federal Financial Assistance Recipients Regarding Title VI Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons* (August 4, 2003) (HHS Grants Policy Statement 2007, II-23).

Projects may not discriminate on the basis of disability and, when viewed in their entirety, facilities must be readily accessible to people with disabilities (45 CFR part 84).

### **13.2 Emergency Management**

All grantees, sub-recipients, and Title X clinics are required to have a written plan for the management of emergencies (29 CFR 1910, subpart E), and clinic facilities must meet applicable standards established by Federal, State, and local governments (e.g., local fire, building, and licensing codes).

Health and safety issues within the facility fall under the authority of the Occupational Safety and Health Administration (OSHA). Disaster plans and emergency exits are addressed under 29 CFR 1910, subpart E. The basic requirements of these regulations include, but are not limited to:

- Disaster plans (e.g. fire, bomb, terrorism, earthquake, etc.) have been developed and are available to staff.
- Staff can identify emergency evacuation routes.
- Staff has completed training and understand their role in an emergency or natural disaster.
- Exits are recognizable and free from barriers.

### **13.3 Standards of Conduct**

Projects are required to establish policies to prevent employees, consultants, or members of governing/advisory bodies from using their positions for purposes that are, or give the appearance of being, motivated by a desire for private financial gain for themselves or others (HHS Grants Policy Statement 2007, II-7).

### **13.4 Human Subjects Clearance (Research)**

Research conducted within Title X projects may be subject to Department of Health and Human Services regulations regarding the protection of human subjects (45 CFR Part 46). The grantee/sub-recipient should advise their Regional Office in writing of any research projects that involve Title X clients (HHS Grants Policy Statement 2007, II-9).

### **13.5 Financial and Reporting Requirements**

Audits of grantees and sub-recipients must be conducted in accordance with the HHS grants administration regulations (45 CFR parts 74.26 and 92.26), as applicable, by auditors meeting established criteria for qualifications and independence (OMB A-133).

Grantees must comply with the financial and other reporting requirements set out in the HHS grants administration regulations (45 CFR parts 74 and 92), as applicable. In addition, grantees must have program data reporting systems which accurately collect and organize data for program reporting and which support management decision making and act in accordance with other reporting requirements as required by HHS.

Grantees must demonstrate continued institutional, managerial, and financial capacity (including funds sufficient to pay the non-Federal share of the project cost) to ensure proper planning, management, and completion of the project as described in the award (42 CFR 59.7(a)).

Grantees must reconcile reports, ensuring that disbursements equal obligations and drawdowns. HHS is not liable should the recipient expenditures exceed the actual amount available for the grant.

### **14. ADDITIONAL CONDITIONS**

With respect to any grant, HHS may impose additional conditions prior to or at the time of any award, when, in the judgment of HHS, these conditions are necessary to assure or protect advancement of the approved program, the interests of public health, or the proper use of grant funds (42 CFR 59.12).

### **15. CLOSEOUT**

Within 90 days of the end of grant support, grantees must submit:

- a final Federal Financial Report (FFR)
- a final progress report

Following closeout, the recipient remains obligated to return funds due as a result of later refunds, corrections, or other transactions, and the Federal Government may recover amounts based on the results of an audit covering any part of the period of grant support (HHS Grants Policy Statement, II-90).

For a complete list of requirements, grantees should review the HHS Grants Policy Statement, available at <http://www.hhs.gov/asfr/ogapa/aboutog/hhsgps107.pdf>

### **16. OTHER APPLICABLE HHS REGULATIONS AND STATUTES**

Attention is drawn to the following HHS Department-wide regulations that apply to grants under Title X. These include:

- 37 CFR Part 401: Rights to inventions made by nonprofit organizations and small business firms under government grants, contracts, and cooperative agreements;
- 42 CFR Part 50, Subpart D: Public Health Service grant appeals procedure;
- 45 CFR Part 16: Procedures of the Departmental Grant Appeals Board;
- 45 CFR Part 74: Uniform administrative requirements for awards and sub-awards to institutions of higher education, hospitals, other nonprofit organizations, and commercial organizations; and certain grants and agreements with states, local governments, and Indian tribal governments;
- 45 CFR Part 80: Nondiscrimination under programs receiving Federal assistance through HHS effectuation of Title VI of the Civil Rights Act of 1964;
- 45 CFR Part 81: Practice and procedure for hearings under Part 80 of this Title;
- 45 CFR Part 84: Nondiscrimination on the basis of disability in programs and activities receiving or benefitting from Federal financial assistance;
- 45 CFR Part 91: Nondiscrimination on the basis of age in HHS programs or activities receiving Federal financial assistance;
- 45 CFR Part 92: Uniform administrative requirements for grants and cooperative agreements to State and local governments; and
- 45 CFR Part 100: Intergovernmental Review of Department of Health and Human Services Programs and Activities.

In addition, the following statutory and regulatory provisions may be applicable to grants under Title X:

- The Patient Protection and Affordable Care Act (Public Law 111-148);
- The Trafficking Victims Protection Act of 2000, as amended (Public Law 106-386);
- Sex Trafficking of Children or by Force, Fraud, or Coercion (18 USC 1591);
- The Health Insurance Portability and Accountability Act of 1996 (Public Law 104-191); and
- Appropriations language that applies to the Title X program for the relevant fiscal year.

## **Additional Title X Guidance**

## **B.2**

In addition to the Title X Program Requirements and the QFP, the OPA has established a set of national priorities, some of which they may elect to emphasize during a given Title X grant cycle. These may change over time. The current program priorities and other key issues are listed below.

### **OPA Program Priorities**

The following priorities, derived from Healthy People 2020 Objectives and HHS priorities, represent the overarching goals for the Title X program:

1. “Assuring the delivery of quality family planning and related preventive health services, where evidence exists that those services should lead to improvement in the overall health of individuals, with priority for services to individuals from low-income families. This includes ensuring that grantees have the capacity to support implementation (e.g., through staff training and related systems changes) of the Title X Program Requirements throughout their Title X services sub-recipients, and that sub-recipient staff have received training on Title X Program Requirements;
2. Providing access to a broad range of acceptable and effective family planning methods and related preventive health services in accordance with the Title X program requirements and QFP. These services include, but are not limited to, natural family planning methods, infertility services, services for adolescents, breast and cervical cancer screening, and sexually transmitted disease (STD) and HIV prevention education, testing, and referral. The broad range of services does not include abortion as a method of family planning;
3. Assessing clients’ reproductive life plan as part of determining the need for family planning services, and providing preconception services as stipulated in QFP;
4. Addressing the comprehensive family planning and other health needs of individuals, families, and communities through outreach to hard-to-reach and/or vulnerable populations, and partnering with other community-based health and social service providers that provide needed services; and
5. Demonstrating that the project infrastructure will ensure sustainability of family planning and reproductive health services throughout the proposed service area including:

- Incorporation of certified Electronic Health Record (EHR) systems and other HIT systems that are interoperable;
- Evidence of contracts with insurance and systems for third party billing as well as the ability to facilitate the enrollment of clients into insurance and Medicaid optimally onsite; and to report on numbers assisted and enrolled;
- Evidence of the ability to provide comprehensive primary care services onsite or demonstration of formal robust linkages with comprehensive primary care providers.”

### **Other Key Federal Issues**

“In addition to the Program Priorities, the following key issues have implications for Title X services sub-recipients, and should be considered in developing the project plan:

1. Incorporation of the 2014 Title X Program Requirements throughout the proposed service area as demonstrated by written clinical protocols that are in accordance with Title X Requirements and QFP.
2. Efficiency and effectiveness in program management and operations;
3. Patient access to a broad range of contraceptive options, including long acting reversible contraceptives (LARC), other pharmaceuticals, and laboratory tests;
4. Establishment and use of performance measures to regularly perform quality assurance and quality improvement activities;
5. Establishment of linkages and partnerships with comprehensive primary care providers, HIV care and treatment providers, and mental health, drug and alcohol treatment providers;
6. Incorporation of the National HIV/AIDS Strategy (NHAS) and CDC’s “Revised Recommendations for HIV Testing of Adults, Adolescents and Pregnant Women in Health Care Settings;”
7. Efficient and streamlined electronic data collection (such as for the Family Planning Annual Report (FPAR)), reporting and analysis for internal use in monitoring performance, program efficiency, and staff productivity in order to improve the quality and delivery of family planning services; and
8. Incorporation of research outcomes and evidence-based approaches that focus on family planning service delivery.”

## **Program Policy Notices**

The Office of Population Affairs periodically sends out Program Policy Notices that update or clarify the Program Requirements. [Exhibit B-8](#) contains all Program Policy Notices released since April, 2014.

Program Policy Notices are also available at:  
[http://www.hhs.gov/opa/title-x-family-planning/title-x-policies/program\\_policy\\_notice/](http://www.hhs.gov/opa/title-x-family-planning/title-x-policies/program_policy_notice/)

## Title X Clinical Services

## B.3

### Protocols

Evidence based, high quality clinical services are a priority of the program. The RH program developed a set of protocols that incorporate the Title X Program Requirements, US MEC, SPR, QFP, and other national standards of care to ensure that high quality RH services are provided. Sub-recipients are expected to use these protocols, adapting them to address their unique service delivery needs. Protocols must be approved by the RH program to be considered compliant.

### Abortion Restrictions

Section 1008 of the Title X Public Health Service Act (the law that established federally funded family planning programs) states that *“none of the funds appropriated under this title shall be used in programs where abortion is a method of family planning.”*

Every family planning program must provide non-directive pregnancy diagnosis and counseling to all clients in need of this service, even though activities related to abortion are restricted. See **Options Counseling** below.

A number of federal documents have been published to clarify and interpret the Section 1008 abortion regulations. For additional information on this issue, please contact the Reproductive Health Program.

### Options Counseling

Section 9.11 of the federal Program Requirements for Title X Funded Family Planning Projects states:

*“Projects must offer pregnant women the opportunity to be provided with information and counseling regarding each of the following options:*

- *Prenatal care and delivery;*
- *Infant care, foster care, or adoption; and,*
- *Pregnancy termination.*

*If requested to provide such information and counseling, provide neutral, factual information and nondirective counseling on each of the options, and referral upon request, except with respect to any option(s) about which the pregnant woman indicates she does not wish to receive such information and counseling.”*

This nondirective counseling is also referred to as client-centered options counseling.

Due to the sensitive nature of this issue for staff and local communities, we require that clients with unintended pregnancies be given a single handout that provides referral information to local resources for all three options. If there are no local resources for a given option, indicate where a client can go to receive the services. This will help fulfill the requirement for nondirective counseling, as well as serve clients who may change their minds, or who want to consider a different alternative after leaving the clinic.

### **Infertility Services**

Clinics must make basic infertility services available to women and men desiring such services. At a minimum, Level I services must be provided at all Title X funded sites. Level II infertility services may be provided, but Level III and IV infertility services are prohibited.

- Level I includes initial infertility interview, education, physical examination, counseling, and appropriate referral.
- Level II includes such testing as semen analysis, assessment of ovulatory function, and post-coital testing.
- Level III and IV are more complex than Level I and II services in that they include complex medication administration and management, including in vitro fertilization, and are considered to be beyond the scope of a Title X program.

See the [QFP \(Exhibit B-1\)](#), for additional information.

## Application & Funding

## B.4

### LPHA Contracts

Each year, every local public health authority (LPHA) in Oregon receives a Financial Assistance Contract with programmatic and service deliverable. Several areas of the contract specifically address family planning.

**Program elements:** The contract contains general and specific program elements (formerly called assurances). A copy of the current program element for reproductive health services follows at the end of this section in [Exhibit B-2](#).

**Funding:** Family planning grant funding is based on a formula agreed upon by the Oregon Health Authority (OHA) and the Conference of Local Health Officials (CLHO). The current formula provides a small base amount and distributes the remaining funds on a per client basis. It is described in more detail below.

All Title X sub-recipients also receive a Notice of Grant Award (NGA) and an extensive interagency agreement/contract from the OHA Contracts Office in Salem. The contract and NGA must be signed and returned to OHA prior to July 1 so that funding for the next fiscal year can begin.

The Title X funding period is July 1 through June 30. Any changes in funding throughout the year are initiated through the contract amendment process.

### Expenditure Reports

Title X funds are awarded to sub-recipients yearly. The amount is divided by 12 months and grant payments are made to Title X sub-recipients monthly. Sub-recipients are required to submit quarterly expenditure reports to the Office of Financial Services. A sample of the current Revenue and Expenditure Report is included as [Exhibit B-3](#).

**Accuracy is important.** It is important to ensure that expenditure reports are accurate by line item. Personal service expenditures must be based on time activity reports where appropriate.

**Final expenditure reports.** Family Planning Service Grant funds may not be carried forward to the next year. Therefore, it is in sub-recipients' best interest to spend up to the limit of their grant. We

recommend spending Title X funds before local funds so that there is no danger of funds being lost.

### **Family Planning Funding Formula**

The OHA and the Conference of Local Health Officials have approved the current version of the family planning funding formula, which went into effect beginning July 1, 2006. The formula is used to distribute Title X grant funds to serve low-income clients who do not have public or private medical insurance.

After exploring a variety of funding models, an ad hoc funding formula workgroup recommended the following formula:

- 1. Distribute a base amount of \$5,000 to each sub-recipient.**
- 2. Distribute the remaining funds on a per-client basis, using the total number of non-Medicaid (non-CCare and non-OHP) or uninsured clients served by each agency in the prior year.**

## Fee Collection

## B.5

### Establishing Fee Collection Policies

Every family planning sub-recipient must set fees for all family planning services and supplies. Fees should be designed to recover the reasonable costs of providing services and may include clinical, support, and administrative costs. (Requirements are listed in Program Requirements for Title X Funded Family Planning Projects, Section 8.4.)

Each sub-recipient is responsible for maintaining fee collection policies that meet Title X billing and collections requirements and reflect their individual business model. The information in this sub-section is intended to help. Please note, however, that it does not cover every situation that may arise.

### Important Basic Guidelines

1. The goal is to **charge fees based on the client's ability to pay**. Fee collection policies and practices should never be a barrier to a client receiving services.
2. **Clients may not be subjected to any variation in quality of services** because of inability to pay.
3. Employees within the same agency must **deliver consistent messages** to clients about fee collection.

### Clients Who Are Unable to Pay

Federal regulations clearly state that clients must never be denied services because of an inability to pay. This fact should be reflected in the clinic's fee policy, in any clinic signage addressing fees, and in any discussions with clients about fees.

### Who Qualifies As "Unable to Pay"

Clients with incomes at or below 100% of the federal poverty level are assumed to be unable to pay and cannot be charged.

A client whose income is above the federal poverty level but is unable to pay for good cause (as determined by the project director) may have the fee waived, in full or in part. The sub-recipient must determine, as accurately as possible, the client's ability to pay based upon family income.

**Note:** In the case of minors seeking confidential services, just the minor's income may be used in fee assessments.

## **Family Planning Fees Must Be Kept Separate**

In accordance with federal rules, fees collected in all family planning clinics funded through Oregon's RH Program must be kept separate from other funds and shall be used only to support the Family Planning Program. Program income collected must be fully used within the period of the LPHA contract agreement and not carried over into subsequent years. See [Exhibit B-2](#) for details.

## **Donations Must Be Voluntary**

Voluntary donations from clients are permissible, under the following conditions:

- Clients must not be pressured to make donations, and donations must not be a prerequisite to the provision of services or supplies.
- Client donations do not waive billing/charging requirements.
- Any donation policy, including information offered about the agency's ability to accept donations, must be applied consistently across all clients, regardless of fee or payment status.
- Donation solicitation is optional and is encouraged to help support the program, but is not required.

## **Sliding Fee Scale**

Sub-recipients must base fees on an authorized sliding fee scale that incorporates federal poverty guideline figures. The Title X Service and Supply Discount Schedule and Reproductive Health Program Sliding Fee Scale are in [Exhibit B-4](#) and [Exhibit B-5](#), respectively.

In order to apply the sliding fee scale, determine the client's family size and income. Instructions for making those calculations are explained in the CVR Manual for Title X and CCare in [Section D](#) of this manual.

## **Important Considerations about Fees**

- Clients whose incomes are at or above 250% of the federal poverty level must be charged the full fee for services and supplies.
- Clients whose incomes are between 101% and 250% of the federal poverty level shall be charged according to an approved sliding fee scale.
- Clients whose incomes are at or below 100% of the federal poverty level must not be charged.

- No flat or minimum fees of any sort (no-show fees, dispensing fees, family planning lab handling fees, etc.) may be charged. As noted previously, voluntary donations may be discussed with all clients.
- No one may be denied services based on an inability to pay.
- Proof of income is not required to receive Title X services.

## Reporting Requirements & Agency Reviews

## B.6

### Clinic Visit Record

The Clinic Visit Record (CVR) serves as the data collection tool for the Family Planning Information System and as the billing mechanism for services provided to CCare clients.

All agencies (Title X and CCare) must fill out a CVR for every reproductive health visit by a client of Oregon's Reproductive Health Program. For complete information on filling out a CVR, see [Section D](#).

### Other Important Reports and Dates

Reporting deadlines and other important dates that apply specifically to recipients of federal grant funds (Title X or Title V) are:

#### Annual Plan Request

Each sub-recipient must submit an annual plan for family planning services covering the period July 1 through June 30 of the succeeding year. The Reproductive Health Program will supply the required format, deadline and current service data for use in completing the plan.

#### Annual Request for Information

Known as "the January mailing," this packet requests information required for the State of Oregon's federal Title X grant application. It also provides the opportunity to update contact information and assess training needs. The request is usually sent to local sub-recipients in early January and is due back to the state in approximately three weeks.

#### Budget Projection

A projected budget for Family Planning Services covering the period of July 1 through June 30 of the succeeding year is submitted to the Reproductive Health Program annually. The due date is supplied by the Program, generally as part of the local agency contract process.

#### Local Agency Contracts

A contract outlining all requirements for funding must be signed annually between the State of Oregon and each local public health authority. The contract contains a specific program element for the Reproductive Health Program. This signing process takes place in May and June.

### **Expenditure Reports**

Quarterly expenditure reports are due to the Office of Financial Services on October 25, January 25, April 25, and July 25.

### **Pap Testing Results**

All agencies are required to provide data about abnormal cervical cancer screening test results for the previous calendar year for purposes of the Federal Family Planning Annual Report. This information will be requested in the Annual Request for Information packet described above.

### **Agency Reviews**

Agency reviews are part of an ongoing effort to evaluate and provide technical assistance to Title X-funded sub-recipients. They are conducted on-site by OHA Public Health every third year, on a rotating basis. The Reproductive Health Program staff provides follow-up during the other two years.

The following information can be found in this section's Exhibits:

- [Exhibit B-5: Review Schedule through 2020;](#)
- [Exhibit B-6: Reproductive Health Program Review Tool;](#) and
- [Exhibit B-7: Reproductive Health Chart Audit Tool.](#)
