Program Updates

1. Monthly ScreenWise Orientation Webinars
2. Reminder to complete the ScreenWise Clinic Information and Services Survey
3. Access to Ahlers

Did you know?

1. ScreenWise Expanded Age Eligibility for BCC services

CLAIMS AND BILLING UPDATE

- OHP CAWEM members are eligible for ScreenWise services because CAWEM does not cover the cost of breast and cervical cancer screenings. CAWEM is a benefit package through OHP that covers emergency medical services only. ScreenWise offers coverage to those individuals whose insurance does not fully cover the cost of breast and cervical cancer screening services, like mammograms and/or pap tests. Additionally, we offer coverage to individuals whose out of pocket costs for diagnostic services pose a financial hardship. CAWEM does NOT provide screening coverage or diagnostic services which means these individuals could be covered by the ScreenWise program if they are an Oregon resident and are at or below 250% of the Federal Poverty Level. When screening clients for ScreenWise eligibility if they produce CAWEM as an insurance provider and they meet the two other requirements, please enroll them in our program. Finally, all eligibility is self-declared and our program requires no proof of residency or bank statements.

For more information please follow the link to the OHP Handbook November 2015

PROGRAM UPDATE

1. ScreenWise Orientation Webinar

To ensure ongoing access and availability to reoccurring orientations open to any clinic staff or providers, ScreenWise implemented a monthly webinar series. We encourage participation from clinics that are new to the program through experienced clinics who want a program refresher. Inserted below is our webinar schedule through September 2016.

2. **Reminder to complete the ScreenWise Clinic Information and Services Survey**

In order to better serve the people of Oregon and you as a provider, we have developed a survey to gather information about your clinic(s). One survey per clinic is needed. The questions cover areas of client access, the services offered, and also the best ways for patients to communicate with the clinic(s). This information will help us to create a more cohesive program and ensure that we are meeting the needs of both patients and providers. The mandatory survey will take approximately 30 minutes to complete, and responses submitted by May 6th. If you have any questions, please email screenwise.info@state.or.us or call (971)673-0581 and press "0"

3. **Access to Ahlers**

ScreenWise implemented significant program changes September 2015. One aspect of the changes included removing the requirement of providers to enter data and claim information in the web database also known as Ahlers. All data and claims should be submitted to ScreenWise for processing. If you are currently using the web database, Ahlers, please contact the ScreenWise program to set up training on our new processes and procedures. As of July 1, 2016 all ScreenWise providers will have read-only access to Ahlers.

DID YOU KNOW?

ScreenWise expanded our age eligibility for women in the breast and cervical cancer program. All women age 21+ are welcome into the program for clinically recommended breast and/or cervical cancer screening services. **No longer does a woman under 40 need to be symptomatic to enter the program.** We accept all women 21 and older, regardless of symptoms, for clinically recommended breast and cervical cancer screening.
