

ScreenWise Program Update: May 2016

HIGHLIGHTS AT A GLANCE

Claims and Billing Updates

1. ScreenWise real time missing data alerts

Program Updates

1. ACTION: Complete ScreenWise Provider Survey
2. ACTION: Provide Clinic Screening Goals by June 30, 2016.
3. Access to Ahlers will be removed July 1st 2016

Did you know?

1. If your patient has a cervix, they might need a pap!

CLAIMS AND BILLING UPDATE

- Previously missing data or claims information has held up the process of patient enrollment, claims entry and clinic payment.
- In order to provide real time feedback ScreenWise will send alert emails to key clinic contacts highlighting any issues with data or claims that we have received.
- This will give clinics the opportunity to quickly revise/update and resend data.

PROGRAM UPDATE

1. **ACTION REQUESTED: Complete the ScreenWise Provider Survey**

- One survey per clinic is needed. If you've already filled it out, you don't need to do again.
- Survey Links
 - Enrolling Providers : <https://www.surveymonkey.com/r/9PKPTGM>
 - Ancillary Providers: <https://www.surveymonkey.com/r/58RJHN6>
- The mandatory survey will take approximately 30 minutes to complete.
- If you have any questions, please email screenwise.info@state.or.us or call (971)673-0581 and press "0"

2. **ACTION REQUESTED: Clinic Screening Goals**

- If you have NOT completed a survey, you will receive a letter from ScreenWise requesting your clinic produce a screening goal for July 1, 2016 - June 30, 2017.
- Screening goals are used to inform our annual budget.
- Clinics will not be penalized for exceeding or not meeting their screening goal.
- All contracted clinics must provide a screening goal.

3. Access to Ahlers (Web database)

- As of July 1, 2016 all ScreenWise providers will have read-only access to Ahlers.
- All data and claims should be submitted to ScreenWise for processing.
- If you are currently using the web database, Ahlers, please contact the ScreenWise program to set up training on our new processes and procedures.

DID YOU KNOW?

If your patient has a cervix, they might need a pap! Many people who are transgender put off seeking medical care due to fear of discrimination or feelings of body dysmorphia it may bring up. You can create a welcoming environment in your clinic by ensuring you know the screening recommendations for all of your patients. [Click here](#) for the Center of Excellence for Transgender Health's General Prevention and Screening Recommendations. This resource is a quick go to that can help you ensure that you are providing the right care for the right person.
