Oregon Health Authority, Public Health Division  
Agency and Division

333  
Administrative Rules Chapter Number

Update the reference to the current School-Based Health Center (SBHC) Standards for Certification Manual

Rule Caption (Not more than 15 words that reasonably identifies the subject matter of the agency's intended action.)  
In the Matter of:

Amending OAR 333-028-0220 pertaining to School-Based Health Center (SBHC) certification requirements.

**Statutory Authority:**

ORS 413.223

**Other Authority:**

**Statutes Implemented:**

ORS 413.223, 413.225

**Need for the Rule(s):**

The Oregon Health Authority (OHA), Public Health Division is proposing to revise the version of the School-Based Health Center (SBHC) Standards for Certification that is currently referenced in OAR chapter 333, division 28.

The 2014 SBHC Standards for Certification reflect the required elements that SBHCs must meet to be certified by OHA as a School-Based Health Center. The SBHC Standards for Certification were updated in 2014 to reflect the most current and relevant evidence-based practices for SBHCs and updated administrative requirements for SBHCs. There is a need to update this reference because Local Public Health Authorities (LPHA) are currently being held to the 2014 Standards for Certification for their currently certified SBHCs and/or planning grantees. LPHAs are responsible for ensuring that SBHCs in their county are meeting SBHC Certification Standards in order to be eligible to receive state funding. As of July 1, 2015, LPHAs are required to meet the 2014 Standards for Certification through the county contract Program Element 44. In order to align the contract language to the rules, the rules need to be updated to reference the 2014 Standards for Certification. Certified sites and planning grantees are already meeting and/or planning on meeting the 2014 Standards for Certification so there is no anticipated impact as a result of this change.

**Documents Relied Upon, and where they are available:**

1. ORS chapter 413

[https://www.oregonlegislature.gov/bills\\_laws/ors/ors413.html](https://www.oregonlegislature.gov/bills_laws/ors/ors413.html)

2. The SBHC Standards for Certification. <http://public.health.oregon.gov/HealthyPeopleFamilies/Youth/HealthSchool/SchoolBasedHealthCenters/Documents/CertificationStandards2014.pdf>

**Fiscal and Economic Impact:**

There is no fiscal or economic impact expected on state agencies, county health departments or the public. SBHCs in Oregon already meet the 2014 SBHC Standards for Certification. SBHCs would not have to change or update any clinical or administrative practices to meet this rule change.

**Statement of Cost of Compliance:**

**1. Impact on state agencies, units of local government and the public (ORS 183.335(2)(b)(E)):**

There is no anticipated cost for state agencies, local governments or the public as a result of complying for the rule change. County health departments with SBHCs are already in compliance with the updated 2014 Standards for Certification.

**2. Cost of compliance effect on small business (ORS 183.336):**

**a. Estimate the number of small business and types of businesses and industries with small businesses subject to the rule:**

There is no anticipated cost of compliance on small businesses by these rules because there are no SBHCs that are operated by small businesses.

**b. Projected reporting, recordkeeping and other administrative activities required for compliance, including costs of professional services:**

No SBHCs are operated by small businesses and therefore there are not projected reporting, recording keeping and other administrative activities required for compliance by small businesses.

**c. Equipment, supplies, labor and increased administration required for compliance:**

No SBHCs are operated by small businesses and therefore there are not projected equipment, supplies, labor and increased administrative activities required for compliance by small businesses.

**How were small businesses involved in the development of this rule?**

No SBHCs are operated by small businesses and therefore no small businesses were involved in the development of this rule.

**Administrative Rule Advisory Committee consulted?: Yes**

**If not, why?:**
