Food Packages for Women Fully Breastfeeding Twins

Women who are fully breastfeeding multiples receive a package that is 1.5 times the fully breastfeeding package. To provide the maximum food package, quantities will be averaged over two months for those foods whose packaging does not accommodate the 1.5 amount.

Women's Food Package Assignment Screen

TWIST will automatically assign the food package with the larger amount of foods for the entire certification. The CPA must make modifications to three foods every other month in the certification.
