**RULE SUMMARY**

The Oregon Health Authority, Public Health Division is proposing to permanently adopt and amend Oregon Administrative Rules relating to the registration and activation of emergency health care services volunteers in response to the passage of SB 563 during the 2011 legislative session.

These rules address the registration, training, background check process, activation and extended liability protection and workers' compensation protection to qualified emergency service volunteers. The rules also help to build more programmatic structure and streamline processes to strengthen the registration process of emergency health care services volunteers to include previously licensed health professionals.

The Agency requests public comment on whether other options should be considered for achieving the rule's substantive goals while reducing the negative economic impact of the rule on business.
