OHA-EMS does not regulate non-transport EMS agencies, but does maintain an active database of those agencies that voluntarily submit registration with OHA-EMS. Registered EMS agencies will be given an Oregon EMS agency number. The agency number will allow any affiliated Oregon licensed EMS providers to link themselves in OHA-EMS's database with your agency for the purposes of license renewal payments and CE audits.

It is unlawful for ANY person to represent themselves as an EMS provider in the State of Oregon who does not hold an Oregon State EMS Provider license. EMS services cannot lawfully be rendered in Oregon without a licensed practitioner who is operating under the authority of a license Oregon medical director as described in OAR 847.
